

Our Community

We have enjoyed the strength of our great community. We are looking for you and our community to continue in making a difference in the lives of others. In the past year, we have doubled our number of participants but currently we do not have the capacity to meet the growing demand. Your assistance will help us move our program forward and help families thrive.

The benefits of your donation will contribute to the Shining Horizons operating budget, providing the resources needed to create opportunities for more children and their families to flourish through therapeutic riding.

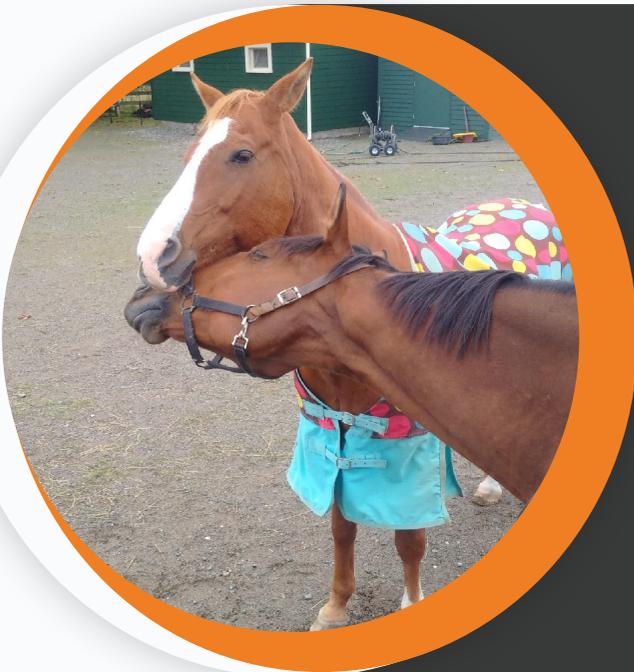

Words from a Participant's Parent:

"Cam's muscles receive a needed workout, his spine becomes erect once in the saddle, his joints receive sensory input with each lifted hoof. Arena sounds are naturally muffled so Cam receives a calming environment. The dust shimmers in the natural light. The instructional guidance brings focus to the task at hand, educational goals are created, social stigmas are removed, side walkers and other riders become friends, and for a time Cameron is pleasantly aware that his struggles will take a back stage for a moment. The program has allowed Cameron free reign to express himself in unique ways. A child's neuro-diversity is no obstacle to becoming a rider in the program. Each child is welcomed to become a rider in the program. Each child is welcomed regardless of their challenges and is provided an unbiased opportunity to be accepted and supported just as they are..."

BECOME A BENEFACTOR

Help us make an impactful difference in the lives of many more families to thrive and move forward. We provide charitable receipts and recognition options are available in many manners based on your desire.

About Our Experts

Shining Horizons Therapeutic Riding Association is a volunteer-based registered charity established in 1996. We offer a horseback riding program (equine therapy) to youth with disabilities by Canadian Therapeutic Riding Association trained and certified staff. Shining Horizons was created by a mother who was looking for an activity to enhance the life of her child who was born with cerebral palsy, therapeutic riding was discovered to be the best activity.

Our name and logo symbolize that some of our riders use a wheelchair and once seated on a horse, the rider's elevated position literally broadens their horizon and opens up a whole new world for them.

Help Us with Our Mission

Please contact us for further discussion and arrange a full Equine Therapy Tour.
