

Our Community

For less than the cost of a coffee a day you can support Shining Horizons. We are looking for you and our community to join us, and become a member of our Dollar a Day Team. In the past year we have doubled our number of participants but currently we do not have the capacity to meet the growing demand. Your assistance will help us move our program forward and help families thrive.

The benefits of your donation will contribute to Shining Horizons operating budget providing the resources needed to create opportunities for more children and their families to flourish through therapeutic riding.

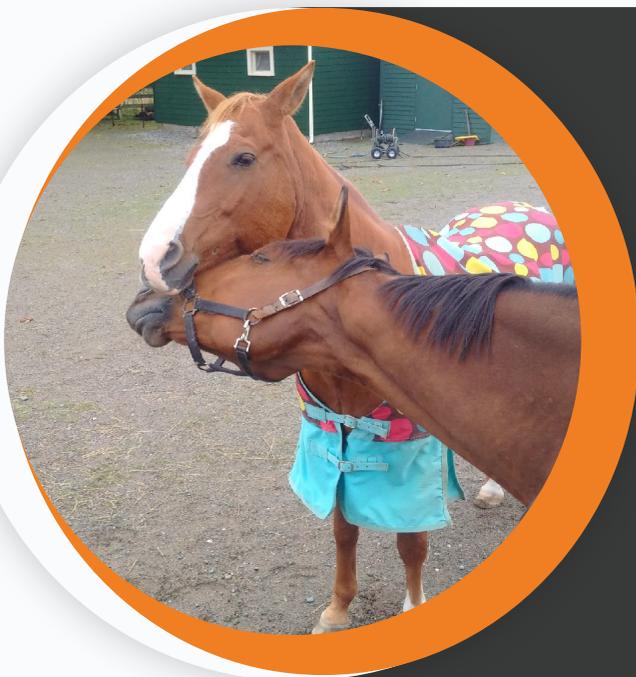

JOIN OUR DOLLAR A DAY CLUB

For a \$1 a day, \$30 monthly you become a member of our Dollar a Day Team and make an impactful difference in the lives of these and many more families to thrive as stated above, We provide charitable receipts and recognition options are available in many manners based on your desire.

Words of Our Participant's parent:

The words of one of our participant's mother.

"Cam's muscles receive a needed workout, his spine becomes erect once in the saddle, joints receive sensory input with each lifted hoof, arena sounds are naturally muffled so Cam receives a calming environment, the dust shimmers. In the natural light, the instruction guidance brings focus to the task at hand, educational goals are created, social stigma's are removed, side walkers and other riders become friends, and for a time Cameron is pleasantly aware that his struggles will take a back stage for a moment. The program has allowed Cameron free reign to express himself in unique ways. A child's neuro-diversity is no obstacle to becoming a rider in the program. Each child is welcomed to becoming a rider in the program. Each child is welcomed irregardless of their challenges and is provided an unbiased opportunity to be accepted and supported just as they are..."

About Our Experts

Shining Horizons Therapeutic Riding Association is a volunteer based registered charity established in 1996. We offer a horseback riding program (equine therapy) to youth with disabilities. Shining Horizons was created by a mother who was looking for an activity to enhance the life of her child who was born with cerebral palsy. For whom therapeutic riding was discovered to be the best activity.

Our name and logo symbolizes that some of our riders must use a wheelchair and once seated on a horse, the rider's elevated position literally broadens their horizon and opens up a whole new world for them.

Our Mission

Our mission is to create opportunities for the youth with disabilities and their families to thrive through therapeutic riding.
